

LaTeX Math Formulas & UML Diagrams (ERD & Flowcharts)

This comparison shows how our Confluence app (Clovity LaTeX + UML macros)
matches the competitor apps' key capabilities across LaTeX and
UML/Diagrams-in the same structure/style as your existing comparison doc format.

Narva - LaTeX Math for Confluence	Our App
Macro name	Available in our app
Inline LaTeX macro	✓
Block LaTeX macro	✓
Export to PDF	✗
Runs on Atlassian	✓
X	Chemical equation support

Stratus-PlantUML Diagrams for Confluence	Our App
Mermaid diagrams	✓
PlantUML diagrams	✗
Graphviz diagrams	✓
Write diagram text like Markdown	✓
GitHub Integration	✗
GitLab Integration	✗
Diagram change history	✗

Coverage Summary (Overall)

Total parent features listed: 12

Covered by our solution: 7

Not covered: 5

Overall coverage: ~60% (7/12)

Not covered items (remaining gaps)

- Export to PDF | Narva LaTeX Math
- Graphviz diagrams | Stratus PlantUML Diagrams
- GitHub Integration | Stratus PlantUML Diagrams
- GitLab Integration | Stratus PlantUML Diagrams
- Diagram change history | Stratus PlantUML Diagrams

Overall summary

Overall, our app covers the core essentials for LaTeX authoring (inline + block) and basic diagram authoring (text-based + Mermaid), and we also support advanced chemical equations.
