Key Differentiators

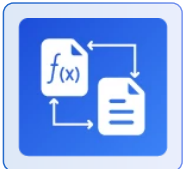

- ✓ One Login. Full Access:**
 Set a person's role once and they're set up across all four modules. No juggling separate permissions for each tool.
- ✓ Your Data, Your Control:**
 Your data stays within your own Jira environment. No third-party servers, no surprise storage costs, no data leaving your organization.
- ✓ See the Full Picture:**
 From individual task hours to company-wide delivery health – everything is visible in one connected view, in real time.
- ✓ Everything in One Place:**
 Track time, plan your team, and manage your portfolio without ever leaving Jira. No tab – switching, no tool-hopping.
- ✓ One App. One Bill:**
 Replace multiple separate tools and subscriptions with a single install. Less to manage, less to pay for.
